“In God we trust; all others must bring data.”
- W. Edwards Deming

Research Experiences

- 11/2020–current **Senior Research Associate**,
University of Cambridge, Machine Learning Systems Lab, under the supervision of Professor Nicholas Lane.
- I investigate the efficiency and scalability of Federated Learning (FL) solutions as part of the *REDIAL: Re-thinking Efficiency in Deep Learning under Accelerators and Commodity Processors* project.
 - I coordinate all our group’s activities related to FL, including internal research and external collaborations with companies such as Brave Software, the Korea Centre for Drug Discovery, and TCL with whom we have submitted a paper to ECCV on Video Self-supervised Learning with FL.
- 11/2017–11/2020 **Postdoctoral Research Associate**,
University of Oxford, Research Group, under the supervision of Prof. Niki Trigoni and Prof. Andrew Markham.
- I investigated and developed location-based services for firefighters using inertial sensors and thermal cameras. This position was funded by the NIST project *Pervasive, Accurate, and Reliable Location-based Services for Emergency Responders*.
 - I was responsible for the co-supervision of PhD students, planning and running experiments with our firefighter collaborators, and writing up our research for publications.

Education

- 03/2013–02/2017 **Ph.D. in Electronic and Communications Engineering**,
Politecnico di Torino, Turin, Italy.
- **Thesis Title:** *Feature Extraction Using MPEG-CDVS and Deep Learning with Application to Robotic Navigation and Image Classification.*
- 09/2007–07/2009 **M.Sc. in Telecommunications Engineering, Double Degree**,
Final Mark: 110/110, Politecnico di Torino, Turin, Italy.
- **Thesis Title:** *Compressive Sampling.* This work was a first analysis on the use of Compressive Sampling for video compression.
- 02/2004–12/2010 **B.Sc. in Electrical Engineering-Telecommunications**,
Final Mark: 7.1/10, University of São Paulo, São Paulo, Brazil.
- **Thesis Title:** *A System for Image Recognition Using SURF Descriptors.*

Research Interests

- **Federated Learning:** I study the applications and scalability of this privacy-preserving new training paradigm.
- **Computer Vision:** Image sensors produce rich and detailed information about the world around us. Being able to extract meaningful and useful high-level scene descriptions is one of my main research goals.
- **Reliable Navigation Systems:** Standard navigation systems, such as GPS, are either not reliable or not precise enough to be deployed in critical operations. I am interested in studying and developing reliable navigation systems based on multi-sensor, collaborative training.

Teaching Experiences

- 09/2020-current **Lecturer**, Deep Neural Networks, Software Engineering Programme, University of Oxford, Oxford, UK.
- 11/2019-11/2019 **Teaching Assistant**, Deep Neural Networks, Software Engineering Programme, University of Oxford, Oxford, UK.
- 02/2017-02/2019 **CDT Course Lecturer - University of Oxford**, Internet Of Things, AIMS courses University Oxford, Oxford, UK.
- 02/2018-02/2019 **Lab Assistant and Guest Lecturer - University of Oxford**, Sensors Networks, AIMS courses University Oxford, Oxford, UK.

Awards

- 2007-2009 **Alta Scuola Politecnica Scholarship**, Multi-disciplinary programme between Politecnico di Torino and Politecnico di Milano that selects each year exceptionally talented and motivated students among the applicants to the Laurea Magistrale (LM) programs in Architecture, Design, and Engineering., Politecnico di Torino, Turin, Italy.

Talks

- 04/2022 **ETAPS 2022**, *Tutorial Speaker*, Federated Learning with Flower, Munich-Germany.
- 07/2021 **MobiUK**, *Presenter*, Flower: An Open-source Federated Learning Framework for both Industry and Research, Cambridge-UK.
- 06/2021 **ROS Dev Day**, *Speaker*, ROS and Flower: ROS Node Meet Real Federated Learning, Online.
- 12/2018 **Blue Light Conference**, *Invited Speaker*, Pervasive, Accurate and Reliable Location Based Services for Emergency Responders, London-UK.
- 10/2018 **Computer VISIONers Conference**, *Invited Speaker*, Visual Navigation in Challenging Environments using Deep Learning, Kyiv-Ukraine.

Academic Service

- **Member of:** Technical Program Committee of the Industry Track at IEEE International Conference on Pervasive Computing and Communications.
- **Reviewer for:** The IEEE Robotics and Automation Letters (RA-L); The IEEE Conference on Robotics and Automation (ICRA);
